

Ringwood Natural History Society Programme ~ Summer 2020

20/04/2020

Silver-spotted Skipper by Martin King

Unfortunately, due to the current Covid-19 virus and its consequences we have to suspend our programme of events. When there's some clarity to the way forward we will update the web site, members on email will be sent a message to view the web site, those not on email will receive a phone call to update them.

Please take a look ringwoodnats@blogspot.com. Our blog site where you can add your sightings and view the sightings of other members.
