

RINGWOOD NATURAL HISTORY SOCIETY

Linford Bottom Walk

Date: 25th March 2026
 Weather: Sunny Spells
 Walk Leader: Pat Holder
 Attendees: 6

Linford Bottom is located to the east of Ringwood, on the western edge of the New Forest and easily accessible from the A31 and A338. In the summer it is a popular place for young families and walkers alike. From the car park our short walk took us along alongside Linford Brook to our left, keeping Little Linford Inclosure to our right until we reached Greenford Bottom and its pond. Crossing the bridge over the brook we found some wild daffodils in the woodland. We then circled round returning back through Little Linford Inclosure.

Birds	Flowering Plants	Others
